WELCOME

Dear Colleagues

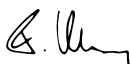

We are delighted to invite you to the pediatric intensive care bootcamp in Switzerland organized by the Pediatric and Neonatal Intensive Care Interest Group (IG PNI) of the Swiss Society of Intensive care medicine (SGI/SSMI).

This two-days course is unique in Switzerland, and is primarily aimed at registrars with a special interest in this field, candidates who have already started their training in paediatric intensive care medicine (fellows and young consultants) and trainees in neonatology.

The focus this year will be on the following topics: Rehabilitation in and after the PICU, practical workshops on the topics of cardiac arrhythmias/pacemakers in the PICU and the difficult airway, as well as talks on sepsis and antibiotics.

Our course is designed to facilitate networking between aspiring pediatric and neonatal intensivists in Switzerland and to promote collaboration between NICUs and PICUs in Switzerland.

We are looking forward to welcoming you in Gunten in november 2023!
