Pediatric Intensive Care – Boot Camp

December 05-06, 2025
Gunten, Lake Thun

igpni-2025.congress-imk.ch

WELCOME

Dear Colleagues

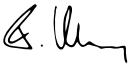

We are delighted to invite you to the pediatric intensive care bootcamp in Switzerland organized by the Pediatric and Neonatal Intensive Care Interest Group (IG PNI) of the Swiss Society of Intensive care medicine (SGI/SSMI).

This two-day course is unique in Switzerland and geared towards sparking an interest in critical care topics among aspiring residents, fellows, junior attendings and nurses who work in the PICU and NICU or are considering to pursue intensive care medicine.

This years's focus will be on acute liver failure, prevention of CLABSI/VAP, highfrequency oscillatory ventilation and family experiences and integration in the PICU, the two latter topics will run as workshops. And as usual participants will present interesting cases.

Our course is designed to facilitate networking among PICU and NICU health care providers in Switzerland, while promoting colaboration in a stimulating learning environment on the shores of picturesque Lake Thun at the foot of the Swiss Alps.

We look forward to welcoming you in Gunten this December!

PD Francis Ulmer, MD
Consultant
Hirslanden Zurich

Janet Kelly, MD
Consultant
PICU Zurich

Prof. Martin Stocker, MD
Head of
PICU/NICU, Luzern

Bjarte Rogdo, MD
Head of Dept.
Pediatrics Chur
